

GENERAL Information

3R Waste Recycling Specifications

Specifying

When ordering, please specify the following:

1. Specify quantity.
2. Product number
3. Specify frame paint finish.
4. Select lid/label and configuration of lids from left to right.
5. Specify panel material.

Notes:

1. Waste/Recycling receptacles have an internal bag-holding system to secure plastic bag.
2. Waste/Recycling receptacles come with rigid plastic liner.
3. Planter option has aluminum container 10" deep. Custom dimensions requires quote.
4. Dimensions include 1/2" thick panels.

Finish Options

Paint

Black	P10
White	P15
Charcoal	P20
Pewter	P30
Charcoal Metallic	P40
Silver Metallic	P55
Nickel Metallic	P70
Bronze Metallic	P80
Dark Bronze Metallic	P90

Plastic Laminate

Plastic laminate pricing is based on Wilsonart finish series
-38 Fine Velvet and -60 Matte

Other finishes and manufacturers requires quote.

Wood

Maple with clear finish	W10
Cherry with clear finish	W20
Medium Cherry stain	W30
Dark Cherry stain	W40
Walnut stain	W50

Lid Options

Stainless Steel Lids Selection

GENERAL Information

Specifications

Glass

Glass

The standard glass which tops all tables quotes in our pricelist. All glass is made according to government specifications (DD-G-451-C) and may contain defects. These defects are inherent in the manufacturing and are within specification. All glass has a natural green tint, and the tint is more noticeable when the glass is thicker or larger.

Starphire Glass

A clearer (less green) glass that is available. Requires a price quote from EKITTA.

Etched Glass

The standard glass that is sandblasted on one side. The sandblasted side is mounted on the bottom, thus creating an opaque or frosted appearance. Etched glass is quoted in the pricelist.

Tempered Glass

Clear glass that has been manufactured to withstand greater stresses than annealed glass. Although sometimes referred to as "safety glass," it is breakable, but it will break into small blunt fragments. Requires a price quote from EKITTA.

Wood

The external wooden parts incorporated in EKITTA products are the highest grade of maple or cherry. These woods, like other natural materials, are subject to variation in grain and coloration. No guarantee will be made of an exact match to EKITTA finish samples.

Custom wood finish samples must accompany the purchase order. Orders specifying custom wood finishes will be scheduled for production upon receipt of an approved customer's custom wood sample match. An upcharge of \$125 NET per order will apply for each custom wood finish sample.

Plastic Laminate

Plastic laminate pricing is based on Wilsonart -38 Fine Velvet and -60 Matte finishes. Wilsonart laminates are GREENGUARD INDOOR AIR QUALITY CERTIFIED

3R and 7R panels may also be specified in any commercially available laminate. Pricing will be determined by the price of the specified laminate, lead time will be based upon the availability of the laminate material. Contact info@ekitta.com for quote.

Painted Metal Finishes

Painted finishes are polyurethane enamel coating with superior durability and excellent impact resistance. Paint finish samples listed are considered standard finishes. All other paint finishes require a price quote from EKITTA.

Aluminum

The metal aluminum is a non-ferrous alloy that is light weight and resistant to corrosion. It can be finished to a natural silvery color or receive an anodized color. Anodizing is an oxidation process that is a permanent and integral part of the aluminum. Contact EKITTA for a price quote.

Stainless Steel

The metal stainless steel is an iron-base alloy containing chromium, which contributes to this material's resistance to corrosion. Depending on the addition of minerals to the alloy, stainless steel's tensile strength, toughness, and corrosion resistance can be enhanced. Stainless steel's finish is a natural silvery color that is very durable and easily maintained.
